

## Section 504 Notice of Parent/Student Educational Rights

If it is determined that a student has a physical or mental impairment that substantially limits a major life activity and, as a result, requires instructional or other appropriate accommodations within the school environment, that student is disabled under Section 504 of the Rehabilitation Act of 1973. In addition, if a student does not have a disability but has a record of a disability or is considered disabled by school personnel, that student is protected from discrimination under Section 504. If a child is disabled or a parent believes that his or her child is disabled or has been discriminated against because of a disability, that parent is entitled to certain rights. This notice is designed to provide RCPS parents and students with information about those rights.

Under Section 504, a student has the right to:

1. Participate in all school activities without discrimination solely on the basis of disability;
2. Be educated in facilities and receive services that are comparable to those provided to non-disabled students;
3. Receive a Free Appropriate Public Education (FAPE);
  - *Free* –
    - A student is entitled to the provision of a free education and education related services without cost to the disabled person or to his or her parents or guardian, except for those fees that are imposed on nondisabled persons or their parents or guardian.
    - Further, a student with a disability has the right to have transportation provided to and from an alternative placement setting (if the setting is in a program not operated by the District) at no greater cost to the parent/guardian than would be incurred if the student were placed in a program operated by the District.
    - Funds available from any public or private agency may be used to meet this requirement. Under the law, insurers and other third parties are not relieved from an otherwise valid obligation to provide or pay for services for a disabled student.
  - *Appropriate* –
    - A student is entitled to regular and special education and related services designed to meet that student's educational needs as adequately as the needs of non-handicapped, non-disabled students are met. If it is determined that a student is eligible for special education, special educational services will be provided under the Individuals with Disabilities Education Act (IDEA) through an Individualized Education Plan (IEP). If it is determined that a student is eligible for accommodations under Section 504, the accommodations will be provided under a Section 504 Plan.
4. A student with a disability has the right to have evaluation, education and placement decisions made based on a variety of information sources, and by persons who know the student and are knowledgeable about the evaluation data and placement options. The student also has the right to be periodically reevaluated.
5. A student with a disability may not be discriminated against based solely on the basis of disability with regard to the opportunity to compete for participation in nonacademic and extracurricular activities offered by the District.
